

- KOMEXS enables convenient remote monitoring of your machines.
- Easy to use this system.

▪ KOMEXS has made it possible even for the customer in the office to gain access to and use machine data that was formerly accessible only in the field.

**⇒ KOMEXS helps KOBELCO provide timely and comprehensive support for your business.**

• Know everything about your machine from anywhere in the world on your computer, like

- What they're doing
- When did it happen
- Where they're located
- How it's performing
- What happened
- etc.....

\* Communication Network is Orbcomm Satellite.  
(Network of low-Earth-orbit Satellites.)
